LEARNING MANAGEMENT SYSTEM (LMS) MANUAL FOR STUDENTS

Dear Students,

Welcome to Students' manual for Learning Management System (LMS). This manual will help you to use LMS in an efficient manner. If you have participated in any of our orientation sessions this manual will prove handy to make your way around our system. We will start with brief introduction to LMS followed by phase-wise process to use various features of this system.

What is a LMS?

LMS stands for Learning Management System and is a web-based system to manage various learning oriented activities. The LMS contain course management, student management, teacher management, activity management and resource management modules. The basic theme of a LMS is to facilitate learning by streamlining collaboration between teachers and students.
